

DENSO TEN Group Eco Vision

I. Commitment (-2050)

The DENSO TEN Group is aware that the environment and economy to coexist harmoniously is our crucial business task, and by aiming to solve environmental and energy problems and achieve coexistence with nature through all of our corporate behaviors, we will promote the better relationships of people with cars and the environment. We will boldly undertake challenges for the vital environment issues faced by society. Aiming for sustainable regions and society, we will create new environmental value, protect the Earth, and deliver a bright future to the next generation.

Commit 2050 : Achieve balance between the absorption and emission of greenhouse gases caused by humans (zero-emissions)

II. Environmental Policy (- 2025)

Through the framework of our globally established environmental management system, we will reflect and promote the DENSO Group eco-vision in our environmental activities plan.

Target 3	Basic Policy	Commit 2025
Energy 1/2	Contribute to permanent maintenance of global environment by the technologies that can solve the problems of global warming, energy and resources.	<ul style="list-style-type: none"> • Contribute to cutting CO₂ from cars in half. • Promote cutting factory energy in half.
Clean × 2	Comply with law and promote continuous improvement in order to provide reassurance to all stakeholders and remain a cooperation that grows with the society.	<ul style="list-style-type: none"> • Promote cutting the effect of hazardous chemical substances, as well as emissions, waste, and the amount of water used, in half. • Develop technology to reduce the emissions gas of automobiles.
Green × 2	Realize a society with sharing nature's wisdom and benefit in order to take over rich natural environment to the next generation through cooperate activity aiming at symbiosis with nature.	<ul style="list-style-type: none"> • Develop products and promote projects that contribute to the environment. • Promote greening.

Category	Specific efforts
Eco products (Project / product area)	<ul style="list-style-type: none"> • Promote technical development and environmental contribution projects that help improve car fuel efficiency, as well as the design of environmentally-friendly products. • Thoroughly carry out management of chemical substances contained in products through our supply chain, as well as quickly grasp trends in global regulations and promote autonomous replacement of regulated substances.
Eco factories (Factory / logistics area)	<ul style="list-style-type: none"> • Promote global warming measures and improvement of energy efficiency for the achievement of a decarbonized society. • Thoroughly carry out the 3Rs (Reduce/Reuse/Recycle) to contribute to a recycling society, thus striving to reduce waste and improve recycling rates. • Promote activities to cut the amount of water used in consideration of the circumstances of the water environment in each country and region. • Promote measures that reduce the environmental risk and cut the amount used of hazardous substances. • Promote green logistics in both the upstream and downstream of production.
Eco friendly (People and living)	<ul style="list-style-type: none"> • Expand environmental education for the purpose that each associate of DENSO group focuses on "preservation of global environment" and takes action aimed at sustainable society in each position and situation on a voluntary bases as our mission • Strive for eco-friendly driving and energy-saving at home, cutting the usage of energy. • Promote environmental contribution activities for the region and society including activities for the preservation of biodiversity.
Eco management (Systems / information transmission)	<ul style="list-style-type: none"> • Continually improve our environmental management system and strive to brush up on our management methods, as well as strive to improve the foundation of our environmental management and create environmental value. • Minimize environmental risk and actively transmit information to all our stakeholders.
